Knowing Your Customers Better

Customers: 4 male Singaporean InfoComm Technology (ICT) professionals in their late-30s & early-40s.

	OPENING AN ACCOUNT	
INTERVIEWEE	POSB	GRAB
Interviewee 1	I opened the account long time ago, the process was quite smooth. But can't use the account immediately	Quite smooth
Interviewee 2	Very long ago. Account was opened when I was in Primary school as part of national drive to promote savings. Need to wait for debit card	Had to open an account after Uber stopped operation here. Process was swift and no problem encountered
Interviewee 3	10 years back when I was not PR. Malaysian IC number was used. Need to update particular afterwards	3 years before. Nothing is bringing difficulty since phone number is being referred
Interviewee 4	Required multiple authentication for each transaction. Online account opening doesn't provide me with a way to withdraw cash from ATM	Smooth, opening account was easy

Tester: Male Singaporean ICT professional in his early-40s.

	OPENING AN ACCOUNT	
COMMENTS	POSB	GRAB
Completing the Application	'SingPass is easy and intuitive'	'Just need to authenticate the OTP from the bank'
Using the New Account	'There is no way for me to deposit & withdraw physical cash if I need to'	'Yeah, I can use the newly created account right away'

PAYMENTS & TRANSACTIONS

Current Situation: Payments & Transactions

PayLah

- Scan QR Code (In-store purchase):
 - SGQR
 - NETS
 - PayNow
- Pay Bills
 - Tap  and select **Bills**
- Pay Merchants
 - Tap merchant's icon
- No. of Merchants
 - > 80,000 Paylah acceptance points e.g., Koufu Eat
- Phone Number
 - Contact List or Enter Phone Number

Knowing Your Customers Better

Customers: 4 male Singaporean ICT professionals in their late-30s & early-40s.

INTERVIEWEE	PAYMENT	
	PayLah	GrabPay
Interviewee 1	Felt that it was a waste of time to keep entering user id to log-in. I don't know whether the recipient receives the money	Process was smooth
Interviewee 2	Multiple payment platforms were opened via POSB. There are Nets, and then PayNow, and Paylah. Not quite smooth for me when moving between different platforms	No issue encountered. It was smooth with Grab
Interviewee 3	It doesn't let me know when the recipient receives my money. No privacy if I give out my phone number for payment.	Link to credit card and no issue when used locally. However, it switch back to cash mode if going oversea or changing phone . No idea if improvement has been made
Interviewee 4	Lack of third-parties app integration. Worried that the money is send to the wrong number	Very intuitive to use, and I used it as the payment method for the app Fave

	PAYMENT	
COMMENTS	PayLah	GrabPay
Navigating to 'Payment'	'Easy to find as it is right at the top of the app'	'2 taps to get where I want'
Entering Payment Details	'Pretty standard process of entering payment amount & recipient details'	'Just need amount to send and who to send it to'
Completing the Transfer	'Mm, it tells me that the payment is on its way but I can't be sure that the recipient did receive it'	'Don't know if the money was send'

Usefulness & Useability [Current User Interface]

Tester: Male Singaporean ICT professional in his early-40s.

QUESTIONS	RATINGS (0 - 10)			
	POSB OPENING AN ACCOUNT		POSB PAYMENT	
	OLD	NEW	OLD	NEW
“How likely are you to use POSB/Grab for opening an account/payment?”	7	8	5	7
“How likely are you to recommend POSB/Grab to your friends & family?”	6	8	4	7

Data-Driven Lean Canvas

Customer Problems 1. Unable to immediately use account applied through digibank 2. Don't know if the money send through PayLah reaches the recipient	Customer Solutions 1. Engineer ATM to display a QR code for digibank to enable deposit & withdraw of money 2. Display a chat-box for messaging after payment is send via PayLah	Unique Value Proposition ● Providing immediate usage of account as soon as it is created online ● Reducing customers' anxiety over payments & transactions errors		Customer Segments ● Retail Customers ● Freelance Business Owners/ Merchants
Cost Structure ● App Re-designing - \$10k ● Personnel cost (Salary) - \$3k/month x 1 ● Additional costs - \$1k/month Monthly estimated cost: 10K + 3k + 1k = 14K	Key Metrics 1. Consumers' ratings of their willingness to 1) open an account using digibank, & 2) use payments & transactions using PayLah 2. Consumers' ratings of how likely they are to recommend 1) digibank, & 2) Paylah		Unfair Advantages ● Access to confidential information not typically available to general solution providers ● Proprietary system with metrics targeting client's needs	
	Channels ● Digibank ● PayLah			
Data we need to make better decisions 1. System Logs a. Duration between creating a new account & its first use in digibank b. Number of cancelled transaction on PayLah		Skills Set Needed ● JavaScript + SQL ● System Integration ● UX/UI design	Revenue Streams ● One-time Project estimated fee: \$48K ● Change request: \$2 - 5k per request Gross Margin (excluding change requests): Revenue (48k) - Cost (14k)/Total revenue (48k) = 0.71
